<b>Footnotes explained</b>													
1 Pre-X is a pre-existing condition waiting period. It is defined as a condition for which medical advice was given or treatment was recommended by or received from a doctor, or other health care provider acting within the scope of his or her license, within three months before the effective date of coverage. For this condition, a company cannot exclude benefits for more than three months following the plan or coverage effective date. No waiting period will be applied for policies being replaced if the previous policy had been in effect for at least three months.
